

Listing tariffs

Version 1.0 · Generated 06 Oct 2026, 23:49 CAT

Published prices for listing on RentHub. These figures come from Listing fees & rules so they stay current.

Property listings

Item	Charge	When it applies
Save a property draft	No charge	Drafts stay private until you publish to Explore.
Publish a property on Explore (rent or sale)	\$20 USD listing credit per live listing	Taken from your listing wallet when the listing first goes live. One fee per listing, not per photo or message.
Edit a live listing (ordinary updates)	No extra charge	Price, description, and normal photo updates do not bill again.
Rewrite a live listing into a different property	\$20 USD again	If the title changes together with most photos, or if type, location, and most media all change, RentHub treats it as a new listing and charges another publish.
Take down or delete a live listing	No refund of listing credit	Credit already used to go live stays used. See the Refund policy.
Discard a draft before it goes live	Listing credit returned to your wallet	If credit was reserved and the listing never appeared on Explore, the wallet is restored. That is not a cash refund.

Services, HubMall and HubJobs accounts

Item	Charge	When it applies
Services, HubMall shop or HubJobs account (Standard package)	\$10 USD for 30 days	Your wallet must cover it when you apply. It is taken when RentHub approves the account, and again each time you renew. Starter credit and top-ups go into that same wallet. Includes up to 5 live listings.
Extra listing slots	\$2 USD per slot	Optional, for an approved account that needs more live listings than its package includes. Extra slots last until the account's next renewal.
Publish products, services or jobs	Free while the account is active	Currently, publishing up to 5 listings costs nothing extra. When you reach your live listing limit of 5, buy an extra slot or take a listing down to publish another.
After the account expires	Off public browse immediately	After a 2-day grace period you cannot add or publish listings until you renew.

Other RentHub charges

Item	Charge	When it applies
Promo video	\$5 USD per video	Taken from your wallet when you post a promo video.
Active Tenancy unlock	\$5 USD (landlord pays once)	Unlocks the signed tenancy workspace. The tenant does not pay RentHub for this. Discard before both parties sign returns credit to the landlord wallet.

Item	Charge	When it applies
Monthly rent or sale price	Not collected by RentHub	Agreed between the parties. RentHub does not take a cut of rent or sale proceeds today.

How to read these tariffs

- Platform free-publish grants are currently ON. Complimentary listing credit is issued under Grant free publishes until that window ends; then these published fees apply again.
- Newly approved landlords may receive one complimentary first publish equal to the current listing fee, valid for 30 days, once per email and phone.
- First-time service providers may receive a fixed \$5 starter credit (about 15 days of account time at today's package) — not the property listing fee. Once per email and phone. The account package is still taken from the wallet.
- First-time HubMall sellers may receive a fixed \$5 starter credit (about 15 days of shop time at today's package) — not the property listing fee. Once per email and phone. The shop package is still taken from the wallet.
- Listing credit and service-account credit are prepaid wallets. Buying credit is not a subscription you can cancel for unused calendar time, except as set out in the Refund policy.
- Prices are in US dollars. Local payment providers (for example Paynow) may show an equivalent in another currency at their rate.
- RentHub can change these tariffs. This page is generated from the live settings RentHub bills with (Listing fees & rules and Listing plans), so it always shows today's prices.

Refunds of cash or wallet credit are explained in the RentHub Refund policy.
